The Department was involved in two (2) snow plow/salt events, performed vehicle and equipment maintenance, inspected road conditions, assisted in the Easter Egg Hunt, attending training courses, and received the new generator. The generator will be installed within the next few weeks. As to the potential 2018 road project repairs to Highspire Road, Mr. Senn met with a consultant on the FDR (full depth reclamation) road repair process. The process is costly, but will provide a longer lasting, more effective fix for the current road conditions. A discussion was held as to the timing of the work – and whether to hold off on the Highspire Road work until 2019. The road consultant believes that the road conditions will hold for another year, and deferring would allow for better cost savings. The Board will take the issue under advisement. In the meantime, Supervisor Jones requested that Mr. Senn advise as to whether any roads are appropriate candidates for repair/maintenance in 2018. Mr. Senn was also instructed to inspect Turtle Dove Road, to assess whether it is showing any fatigue as a result of the Sunoco pipeline operations. A discussion was also held as to removing the grass circle area in Messner Lane for safety purposes.

Lastly, Mr. Senn requested authorization to purchase a Gantry lift from municibid. After discussion, Supervisor Jones moved that the Township authorize the purchase of the Gantry lift for an amount not to exceed \$2,021. Chairman D'Angelo seconded the motion, which carried unanimously.
