New Business

1. Tree Lighting/Bonfire – the tree lighting went on very smoothly. We had a nice showing of people. The Twp building was put to good use by Kim for Santa as well as refreshments. The bonfire was huge!
2. 2006 Budget – we discussed the item on the 2006 Supervisor's Budget for the Parks & Rec. This item was for \$60K and was stated to be used to put together a proposal for work on Alice Park. The board feels that not only is that an excessive amount for putting together a proposal for work, but we already did this in 2004. We advised Castle Engineering to use Evergreen to do Phase I. Castle Engineering took all of the proposals and the P&R Board's advice. That was the last the Board has heard of anything regarding Alice Park. Now we see a Budget item to do work that was already done. Greg will be going to the next Supervisor's meeting and will bring this up. Jim will be attending the January Supervisor's meeting and will also bring this up.
3. This was Jill Givler's last meeting as a member of the Parks Board. We will miss Jill. She will continue to recruit for the Board.
